

Coach Support:

Year 1 and 2 worked with a coach to offer football and Fundamental Movement Skills as part of an alternative curriculum. The coach worked with a Teacher and Teaching Assistant to plan and deliver the lessons.

There was also an after school club offered to all children with the coach. This was attended by pupils from Year 1- Year 6.

As part of our work with the SSP we held a Cycling Day in school. All classes got the opportunity to work with a cycling specialist to improve their skills on their own bike or a balance bike.

Impact: The children were highly engaged in the sessions. Teachers and Teaching Assistants have a greater understanding on how to develop fundamental movement into sessions and to incorporate football.

Children attended events through the SSP:

SSP Spennymoor Football League

Year 6 children took part in the League games and showed fantastic team spirit and finished 5th in the league. Games will continue in Spring Term.

Multi-Skills Events for Years 2 and 3

The children were given the opportunity to compete at a range of events. Year 2's favourite activity was the scarecrow game.

Impact: Increased enjoyment at a range of sports. It encourages children to beat their personal best in events.

Impact of Sport Premium

at

**Rosa Street Primary
School**

Autumn 2019

Leadership Opportunities for Pupils:

Activators (Group of KS2 children) Children worked with the SSP teacher to understand the programme and train for playtime activities.

Playground Leaders (Group of Y6 children)

This group help to run active activities at playtimes.

Impact: Increased pupil voice on PE issues and opportunities for leadership skills across KS2.

CPD

All staff worked with the SSP specialist teacher on the Active Ted programme to help promote 30 Active minutes of activity a day in school.

The school have received their Fit for Life license and as part of this is training on the delivery of the fitness programme.

Impact: Increased staff knowledge on the importance of children having a healthy lifestyle. Increased children's fitness levels and shared information with parents/ carers.
