

# Let's climb the stairs for a stage!

20th-26th March 2021

How many times can we climb our stairs at home in a week to raise money for a new outdoor stage?

Maybe I could climb as high as The Angel of the North?

20m

approx. 7 times up the stairs.

Or to the top of Durham Cathedral?

66m

approx. 22 times up the stairs

Maybe I could climb to the top of the Eiffel Tower??

300m

approx. 100 times up the stairs

As a school could we even make it to the top of Mount Everest if we add our climbs together?!

8849m

approx. 2950 times up the stairs!

The children would love a stage to stretch their imaginations and play together with their friends. Wouldn't it be an amazing way to celebrate the end of social distancing and restrictions when the time comes? Please support this sponsored event by pledging to climb the stairs as many times as you can and collecting sponsor money from friends and family.
